OUR SOUL
A PLACE TO BE SAVOURED
AND ENJOYED WITH LOVED ONES**

**HOME IS WHERE
THE HEART IS**

WHY CHOOSE HEARTRIDGE FLOORS?

At Heartridge, we believe beautiful floors are the heart of any home. Part of the Dunlop Flooring group, leaders in the underlay industry for over 50 years, flooring has always been our passion.

We search the globe for the latest in flooring innovation and select only the most beautiful colour variations that nature can provide us.

Available in Engineered Timber, Laminate and Luxury Vinyl Plank, Heartridge is the perfect flooring option to make your space a place to come home to.

THE STUNNING LOOK OF REAL TIMBER

Hybrid Vinyl Planks are a quick and affordable way to upgrade your home. Using the latest in multi-layered technology, Hybrid Vinyl Planks offer the same natural beauty as solid timber without the hassle. They're easier to install, require less maintenance and are intricately embossed for that extra level of realism. With outstanding water resistance and exceptional acoustic performance, they're ideal for any room in the house and perfect for the demands of modern living.

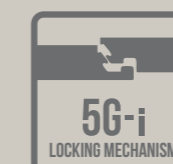

GUARANTEED TO LAST

Backed by a Lifetime Structural Guarantee, our Hybrid Vinyl Planks will remain durable for many years to come.

BUILT TO WITHSTAND THE FLOW OF DAILY LIFE

Built to last with a 30 Year Surface Guarantee you can feel at ease knowing your floors will stand the test of time.

EASY TO INSTALL

Our Hybrid Vinyl Planks use an integrated, user-friendly 5G-i locking mechanism for speedy and secure installation. Planks click together tightly with no gapping. No adhesives are required; all you need is a rubber mallet, and three gentle taps on the end join to lock them in.

SMOKEY ISLE

DESIGNED FOR DURABILITY

Thanks to its multi-layered construction, Hybrid Vinyl Planks provide outstanding durability, impact resistance and comfort underfoot. Each plank offers greater dimensional stability with two layers of Luxury Vinyl Plank either side of a rigid SPC (Stone Plastic Composite) core.

The dense SPC core helps resist impact and indentation, even from high heel shoes. It is textured with a matte embossed surface, PU coating for wear resistance, and hardwearing clear PVC layer that makes Hybrid Vinyl Planks perfect for high traffic areas.

Standard Luxury Vinyl Plank is very flexible, which means it may crown or peak under extreme heat. However, Hybrid Vinyl Planks can be installed in direct sunlight and still remain rigid and flat thanks to the solid core.

Impervious to extreme conditions inherent to the harsh Australian climate, Hybrid Vinyl Planks can withstand direct heat and extreme cold, with the lowest expansion and contraction rates.

Urethane Lacquer Coating
For scratch & wear resistance

0.55mm Clear PVC Wear Layer
For protection of décor film

PVC Film
For a realistic timber visual

1.3mm PVC
For detailed embossing

3.5mm SPC Core
Stone-plastic composite for stable construction

0.7mm PVC
For a balanced construction

1.5mm IXPE Foam Backing
For acoustics. VOC-free foam used

Plank Size: 7 x 228 x 1840mm

REGAL COVE

PERFECT FOR EVERY ROOM

You can have Hybrid Vinyl Plank flooring on any level of your home as well as in wet areas for a consistent and cohesive look throughout the entire house. It can be installed over most subfloors, as well as existing hard surfaces, including tiles and particleboard.

HIGHLY WATER-RESISTANT

Can be installed in wet areas, such as bathrooms and laundries. Being impervious to moisture, the planks won't warp or peel, and the surface can be mopped without any complications, making cleaning that much easier.

THE QUIET ACHIEVER

Heartride Hybrid Vinyl Planks are acoustically tested, with results demonstrating a noise reduction result that falls underneath the performance requirements set by the National Construction Code. This quality makes them a perfect solution for apartments and multi-level homes. Equipped with an IXPE Foam Backing, for better sound absorption, Hybrid Vinyl Planks won't impact on indoor air quality because of the VOC-free foam used.

GENTLER ON THE ENVIRONMENT

The look of realistic timber without the environmental impact of using real timber floors.

EASY TO CLEAN AND MAINTAIN

Real timber boards require a lot of maintenance to retain their aesthetic, but with Hybrid Vinyl Plank, it's effortless. Thanks to the unique, rigid construction and composition, you don't need to oil, sand or refinish the boards.

AUTUMN HARVEST

TRUE TO NATURE

Available in a variety of different colours, Hybrid Vinyl Plank offers a stylish range of timber designs that recreate the stunning look of timber.

The realistic timber embossing follows the natural pattern of the grain, combining with a tough PVC film to protect your floors.

Planks are also available in the same size as traditional timber boards to create a stunning vinyl floor that looks and feels just like real timber.

EASY TO CLEAN

We recommend the use of Bona Floor Care products to keep your floors looking brand new and your home beautiful.

AN IMMACULATE HOME IN 2 SIMPLE STEPS

- Remove loose dirt, grit and dust with a **Bona Dusting Pad**. If using a vacuum cleaner, ensure the cleaning head has a soft brush to prevent the occurrence of scratches to the floor surface.
- Use a **Bona Spray Mop** with **Bona Stone, Tile & Laminate Cleaner** for a spotless finish.

AUSTRALIA'S MOST TRUSTED UNDERLAY FOR YOUR HARD FLOORING

WE RECOMMEND THE USE OF...

Advantage 3 is a rubber/cork acoustic underlay suitable for conventional and double bond applications for **timber, laminate** and **vinyl plank floors**. Designed to reduce impact sound insulation, Advantage 3 exceeds the NCC minimum requirements for acoustic performance, whilst offering thermal insulation.

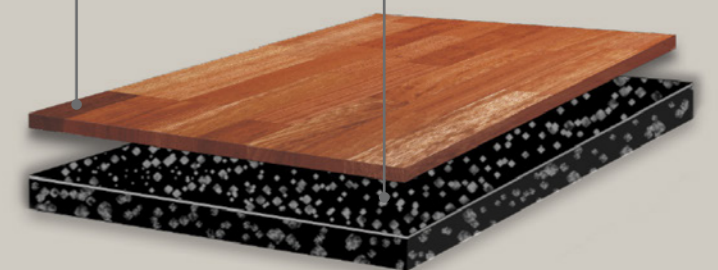

TECHNICAL SPECIFICATIONS

Thickness	3 mm
Roll Length	10.0 m
Roll Width	1.0 m
Roll Size	10 m ²
Density	700 kg/m ³
Composition	85% Rubber, 15% Cork

To learn more about the complete range of Hard Flooring underlays, visit dunlopunderlay.com.au

Glued or Floated Timber, Laminate or Vinyl Plank Floor

85% Recycled Rubber
15% Natural Cork

To achieve the rating of 196 Sd, for Dunlop Advantage 3, the product must be installed with a 200 micron plastic sheet.

The minimum requirement as set by the **NCC** is **62 dB** (the lower the **dB** result for the flooring assembly, the better the acoustic performance).
